GameObject system

WORK EXPERIENCE

Wanted Game Studio

- ***Game Development Intern***

September 2025 — January 2026

Designed a PotG system and solutions for multiplayer edge cases, and implemented gameplay and UI/UX features for an official Tetris® title and a karaoke game.

Amsterdam University of Applied Sciences

- ***Digital Strategy and Information Policy Student Assistant***

*June 2026 — **PRESENT***

I'm supporting the DSI staff department with internal communications and the implementation of the Digital Agenda (DA).

- ***Digital Media & Creative Industries Faculty Council Member***

September 2024 — August 2026

Represented 9000+ students as Chair of Student Affairs and as a member of the Education & Research Committee.

- ***Game Development Student Assistant***

September 2024 — February 2026

Guided 100+ first-year and retaking Game Development students with game design and programming, and conducted *expert reviews*.

- ***Central Works Council Member***

September 2024 — October 2025

Represented 45,000+ students while advising and co-deciding on school-wide matters, including educational improvements, facilities, finances and policy changes.

EDUCATION

Amsterdam University of Applied Sciences

- ***HBO-ICT Game Development***

*September 2023 — **PRESENT***

A program focused on designing and developing games.

Damstede Lyceum

- ***Technasium (Research & Design)***

September 2017 — July 2023

An additional elective subject based on project-based education, in which solutions are designed for real assignments from external parties.

- ***HAVO, Nature & Technology***

September 2017 — July 2023

Profile including advanced math B, physics, chemistry and social studies.

Amsterdam, Nederland

SKILLS

Gameplay

- Player experience
- Pacing
- Game mechanics
- Game systems
- Game loops
- Procedural generation
- Responsiveness

Tech

- C#, C++, JS/TS, SQL
- Object-oriented programming
- System architecture
- Game engines
  - *Unreal Engine 5*
  - *Unity*
  - *Cocos Creator*
  - *MonoGame*
- Debugging
- Virtual Reality (VR)

Collaboration

- Leadership roles
  - Project Lead
  - Dev Lead
  - Scrum Master
- Scrum & Agile
- Cross-disciplinary collaboration
- Project management
