Game object system

WORK EXPERIENCE

Wanted Game Studio

- **Game Development Intern**

September 2025 — January 2026

Designed a PotG-system and solutions for multiplayer edge cases, and implemented gameplay and UI/UX features for an official Tetris® title and a karaoke game.

Amsterdam University of Applied Sciences

- **Faculty Council Member – Digital Media & Creative Industries**

September 2024 — August 2026

Represented student interests and provided faculty-wide feedback as Chair of Student Affairs.

- **Game Development Student Assistant**

September 2024 — February 2026

Provided guidance and expert reviews for 100+ first-year and retaking game development students.

- **HBO-ICT Education Committee Member**

September 2025 — November 2025

Represented student interests and provided feedback on the HBO-ICT curriculum.

- **Central Works Council Member**

September 2024 — October 2025

Advised and co-decided on school-wide matters, including educational improvements, facilities, finances and policy changes.

EDUCATION

Amsterdam University of Applied Sciences

- **HBO-ICT Game Development**

September 2023 — **PRESENT**

A program focused on designing and developing games.

Damstede Lyceum

- **Technasium (Research & Design)**

September 2017 — July 2023

An additional elective subject based on project-based education, in which solutions are designed for real assignments from external parties.

- **Havo, Nature & Technology**

September 2017 — July 2023

Profile including advanced math B, physics, chemistry and social studies.

📍 Amsterdam, Netherlands

Game Design Skills

- Player experience
- Pacing
- Game mechanics
- Game systems
- Game loops
- Procedural generation
- Playtesting & quality assurance
- Responsiveness

Tech Skills

- C#, C++, JS/TS, SQL
- Object-oriented programming
- System architecture
- Game engines
 - Unreal Engine 5
 - Unity
 - Cocos Creator
 - MonoGame
- Debugging
- Virtual reality

Collaboration Skills

- Leadership roles
 - Team Lead
 - Dev Lead
 - Delegated PO
 - Scrum Master
- Scrum & Agile
- Cross-disciplinary collaboration
- Project management
